Employee of the Month

Chris Vail re-joined the DDB Family on June 6th of 2012. Chris had previously worked for DDB when he was 18 yrs. Old. Because of his previous employment, he already knew some of the employees so it was easier for him to feel right at home when he started back. Chris, as we all know, is a very quiet person and doesn't talk very much unless he gets to know you . Working with his hands and messing with tools is something that Chris really enjoys doing. Chris also likes many of his

Co-workers, so it is safe to say that he enjoys his job. On a more personal note, Chris also likes to spend his free time at home fixing things around the house and tinkering with his collection of tools. Some other days he would just be happy to kick back, watch movies and relax. Chris has an extremely laid back personality and seldom gets worked up or upset at anything which in turn makes him very easy to get along with. Perhaps one of his favorite things to do is spending time with

his family. Chris and his family enjoy family time spent together often which include Dinners and Movie Nights. All in all Chris is an awesome employee and person. We would like to show him our appreciation and thank him for all he does for us and with us here at DDB. Congrats !

Safety Topic

Christmas is perhaps the most stressful time of the year. Most times we find our thoughts wandering to bills, presents, last minute shopping, dinners, family and how we will fit them all in to this busy and hectic time of year. This causes more incidents and accidents than you ever thought possible. Just as we discussed last month, simply paying better attention will greatly reduce the injuries that occur over the holidays. We all want to have a wonderful holiday season with the ones we love, so the best suggestion that I can give everyone is to slow down, breathe, and enjoy the true meaning of Christmas.
