### Why Choose the SVP Series?

The SVP series, outdoor enclosure, is the ultimate choice for your indoor/outdoor requirements. Being made of our own rugged Alumiflex®, you'll find it noticeably lighter than steel, yet strong enough to support even the heaviest equipment. When choosing the SVP series, you are selecting the highest value in American construction. It is ideal for both indoor and outdoor applications. Due to the flexible platform, the SVP can be utilized as an electrical panel, battery storage, or communication cabinet as well as other numerous applications. The SVP series includes standard features you have come to expect, including a standard back plate, pad locking hasps, and various mounting bracket types. Additional optional accessories that can be added to enhance functionality include climate controls, venting options, and electrical/cable entry solutions. All of this comes together to create an enclosure able to meet all of the unique needs your customers have been seeking. DDB offers a state-of-the-art design, a competitive price, benchmark lead times and a guaranteed delivery, all backed up with an industry leading 15-year warranty on every enclosure. Put DDB's substantial stock to work for you today. Contact our professional staff to assist you with your made-to-order solution.
