Craftsmanship

Why Choose the 3OD Series?

When your project calls for a robust, spacious and dependable enclosure. Look no further than our 3OD series that will not only meet your needs but exceed them. Based on our tried and tested OD design the 3OD Series gives you all the benefits of the OD but without the size restriction. Allowing you to take on larger and more complex projects but also providing you with solutions for air flow, cable management and system to system connectivity.

The 3OD series comes with the versatile strut system for adjustable racking, the security of a 3-point locking system, and our Alumishield® solar cap to manage heat loads. Our 3OD series can be complimented with any of our available climate control solutions and fitted with project useful accessories. Our design is purpose driven with two objectives in mind, to ease the installation process which saves you time and money and to make sure your equipment is secure once you close the doors on your enclosure.

DDB offers a state-of-the-art design, a competitive price, benchmark lead times and a guaranteed delivery, all backed up with an industry leading 15-year warranty on every enclosure. Put DDB's substantial stock to work for you today. Contact our professional staff to assist you with your made-to-order solution.

WEB DRAWING (NOT FOR FABRICATION)

Technical drawing of a rectangular web structure. The drawing shows a rectangular frame with a central panel. The frame is composed of two horizontal rails and two vertical rails. The central panel is divided into two sections by a vertical line. The overall width is labeled as 91.832 and the overall height is labeled as 36.75. The drawing includes mounting holes along the perimeter and internal vertical lines. A note indicates '4X Ø.531 THRU' for the mounting holes. The text 'MOUNTING HOLES' is written at the bottom center of the drawing.
