

Cabinet Base

CB6-DDC

Why Choose the CB series for your enclosure?

Does your enclosure need a lift? Literally? Do you need a larger footprint for your HVAC unit? Is it dragging on the ground when you open the door? When it comes to pad mounting, working with cabling or power underneath your enclosure, or if you simply need your enclosure to sit on top of the snow drifts instead of under it, look no further than DDB's extensive line of enclosure bases. All enclosure bases can be installed onto your enclosure by our professional in-house technicians guaranteeing a perfect fit every time, with an additional benefit of saving you time and money allowing you to focus on what is important. Contact our professional staff to assist you with your made-to-order solution.
